

eCotton Product Documentation
System Operation

When using the eCotton programs, there are features that are common throughout the programs. Following is a description of what they are.

Enter, Look up or Roll up/down

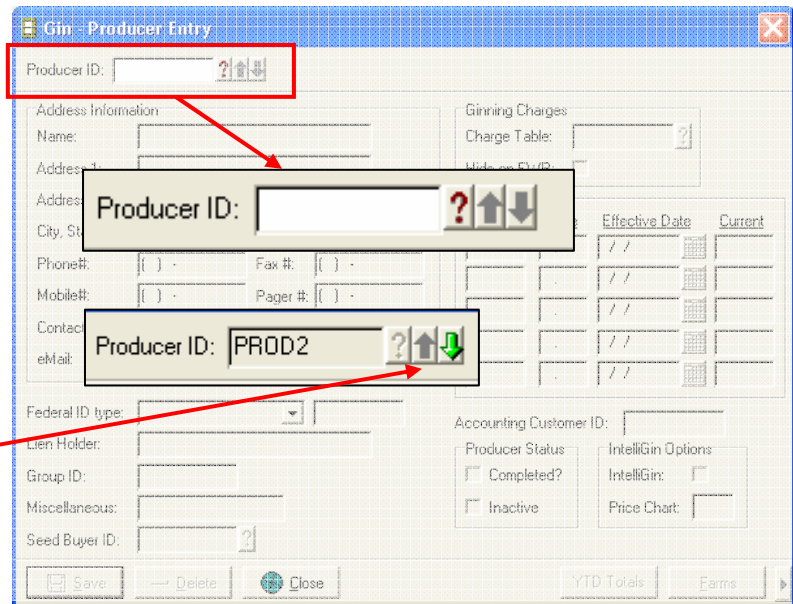

Any eCotton screen that requires the entry of an identifier can be used as follows.

For example, to enter, locate or roll up/down for a producer ID, use the input area.

Type in an ID and press the tab key to create a **new** entry.

Click the ? to **select** an ID from a list.

Once an ID is selected, 'roll' to the next or previous record by clicking the up/down arrows.

Buttons

 Save	Save the entry.
 Delete	Delete this entry or record.
 Close	Exit the current screen
 Done	Finished with this entry.
 Cancel	Do not accept entries or changes

Add/New Change Delete
(Select entry first.)

Look Up

Use the ? from the screen to display the list of entries.

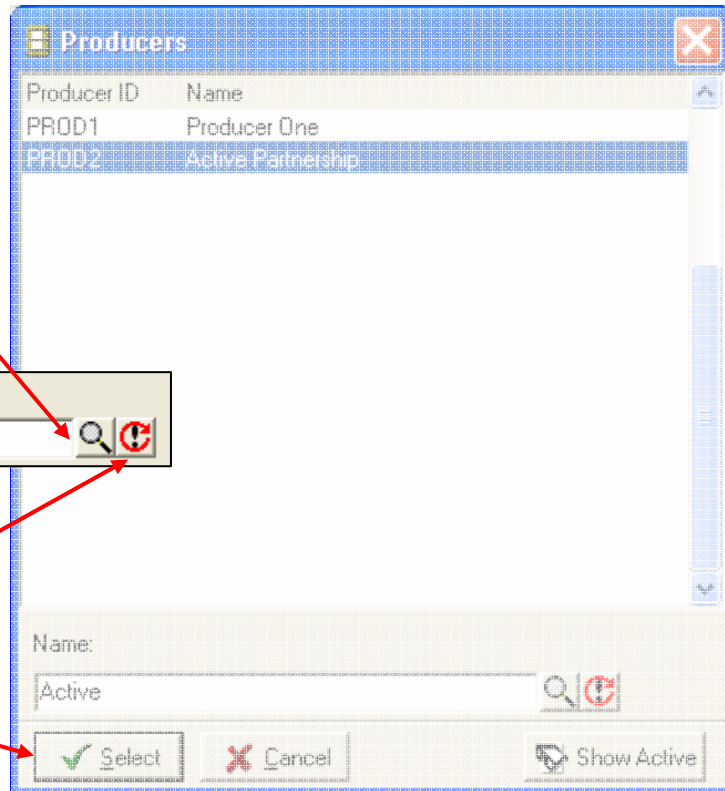

To locate (lookup) an entry, type the lookup 'string' in the **Name:** box and click on the Magnifying glass button. The 'string' can be any part of the entry ID or name.

Name:
Active

Click on the continue button to search again.

When the entry is located, click the Select button.
